Summary

With +9 years of experience, I have become a proficient Full-Stack Developer in JavaScript / TypeScript (Back End heavy) with enough knowledge in Python and DevOps. I am a creative person with a friendly and open-minded co-worker attitude.

I have been an entrepreneur, an employee and I will always be a student ready for the next challenge.

You could also check my Github <https://github.com/devluist>

Experience

Front End Developer

EmQu Technologies

Sep 2022 - Present (1 month +)

Full Stack Engineer

SIM Venezuela

Jun 2018 - Aug 2021 (3 years 3 months)

- DevOps:

- * Site Reliability Engineering. Sentry, Prometheus and Grafana SQL/PromQL queries for reports, health checks, and monitoring

- * Automation Scripting development with Bash/Python

- * Servers setup: Nginx, domains, non-sudo users, custom ports, set ssh keys, firewall setup, etc

- React.js

- * Co-developer on some of the React projects for clients and internal project at the company

Full Stack Engineer

Universidad de Oriente (VE)

Sep 2017 - Mar 2018 (7 months)

Web app for data collection to increase tourism. This was a college project, made with Node.js / Express.js and MongoDB.

I was in charge of the Backend, Architecture, and Admin Dashboard. I implemented Factory and Strategy Design patterns on the API.

There is demo based in a Venezuelan state here <https://youtu.be/cBGeJUG1bu8>

Entrepreneur

Self Employed

Dec 2013 - Mar 2015 (1 year 4 months)

This app was a Venezuelan freelance marketplace web app. You could see a demo at https://youtu.be/EGY_NsZGuSc

- Back End with Python2.5 / Django 1.8
- Front End with CSS3 + Bootstrap3 and HTML5
- Deployment to a Server through Openshift services

Education

Universidad de Oriente (VE)

Bachelor of Science - BS, Computer Science
2008 - 2018
